

W1 5mm

The W1 Suit is the non compromising suit for extreme conditions.

THE LEGEND

W1, part of the new Waterproof Era. "A Front-Zip???" "Marvellous looking!" "Fully Spaced out and loaded with Tech Stuff?" Astonished faces among the Waterproof R&D staff when presented their most challenging task ever.

Mission Impossible was to override the stunning and world most awarded current suit line, the existing 20th Anniversary Waterproof collection. And in addition create something that was by far opportune in the market, a fully dressed-up Front Zip Suit.

The faces hardened, the doors banged locked and when finally opened, the new born W1 was awarded with the most prestigious design award in the world, the Red Dot Design Award. And this as "Best of the Best 2009" in the category Product Design.

The new W1 with highly quality unique functions and ergonomic design convinced the international jury.

So, pared with earlier winners like Nike, Apple, Adidas and Lamborghini we at Waterproof kind of feel we did it again, created yet another winner!

Proudly presenting the Waterproof 25th anniversary suit, W1.

W1 5mm

The W1 Suit is the non compromising suit for extreme conditions.

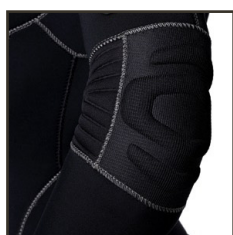

WATERDAM
Finally a working concept for hindering the water streaming down your neck and spine when moving your head. This WaterDam concept is unique for Waterproof.

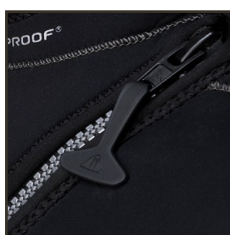

HIGH VISIBILITY
Reflective logo on neck.

SIDE ZIPPER
The opening is positioned at the side of neck to enhance comfort and flexibility for the neck.

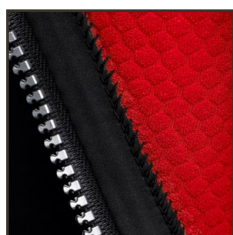

EMBOSSSED ELBOW
Embossed elbow protection with Toughtex abrasion resistance.

ZIPPER PULLER
Very good grip with or without gloves, to open and close the YKK #10 zipper. The flat design makes it disappear when you don't use it.

MULTI OPTIONAL PLATFORM
Multi Optional Platform. A unique gadget that holds Waterproof series of micro back-up gauges. Compass/Temp/Reflex

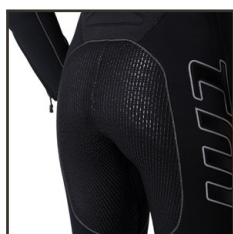

HEXTEX INNER LINING
A special shape and material that slows down the water movement in the suit. Extremely comfortable.

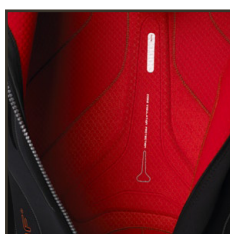

NECKTAB HOLDER
The NeckTab attach to the knob holder to keep tab in place in surface mode.

NECKTAB
new moulded TPU (eco) NeckTab with micro teeth and sticks only to the assigned Velcro part.

A SEAT THAT GRIPS
Polyurethane embossing in the back provides a non-slip grip and integrated abrasion protection.

SPINEPAD
11mm thick and countered designed SpinePad features additional protection to kidney and spine areas. Inside has place for personal marking of the suit.

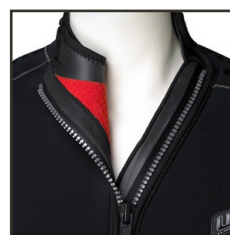

COMPUTER STRAP ANCHOR
To prevent the computer from slipping off your arm when gloves are removed or suit is compressed. The antislip surface makes the computer to stay in place.

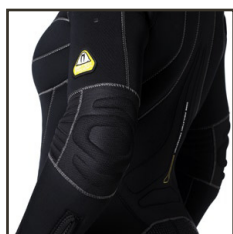

WAVE FLEX PANEL
In hollow of arms and legs.

MULTI OPTIONAL PLATFORM
Generous double seals made from glide skin neoprene with zipper at arms and legs. YKK #10 Vislon zipper features a TA slider with an anti slip designed ZipGrip.

ZIPPER SEAL
Open cell and closed cell neoprene on opposite sides of the zipper for an ultimate dry seal.

3D SCULPTED SUIT
With pre-bent arms and legs for maximum anatomical fit.

KNEEPAD
3D moulded vulcanized rubber kneepads. Note the unique design that enables unrestricted leg movements via the "hinge effect".

GENDER SPECIFIC STYLING
Provides comfortable lift and support.

W1 5mm

The W1 Suit is the non compromising suit for extreme conditions.

PRODUCT FACTS

- Available in 5mm thickness.
- Gender Specific Design – Different patterns for man and lady provides comfortable lift and support.
