

### Additional information and contact

Since your new torch is built to last you will probably never need customer support. However, please feel free to drop us a few lines on how you use your Wiseled product. We appreciate your input.

Wiseled produces a range of flashlights that all use the same charger and the same accessories, so you get a full range of uses from your new tool. Don't leave it on a shelf – observe, discover, and explore.

You can always reach us at:

### Thank you for choosing Wiseled

We believe in combining superior quality with unequalled customer service.  
We don't sell spare parts - we deliver products that last. Wiseled lighting tools will let you go deeper, play longer, work safer, and see better than ever before.

- Overall length: 20.5 cm / 8"
- No taillight possibility

## User guide

### Button: A

Press and release: On/ Off

Press and hold down: Strobe

Press and hold down: Continuous dimming control (loop)

**Don't use the backend of the Street model for anything else than charging.**

When you run your flashlight at maximum power for a period, it will automatically return to continuous drive mode. This prevents the flashlight from overheating, and secures you optimal battery life time.

## Maintenance

Cleaning: Just wash it under running water or with a dry cloth

– no chemicals needed or advised.

Storing: Keep your Wiseled flashlight within reach and charged – you never know when you will need it.

Refurbishing: If the front- or backend of the flashlight wears out over the years, you can order new backend and frontend pieces.

## Charging

**It's advised to always keep the flashlight fully charged.**

Charging indicator: Orange when charging  
Blue when 90% recharged

Charging indicator cradle: Orange when charging  
Blue when 90% recharged

Charging time: 1 hour

You can either charge in the charger cradle, or directly connect the flashlight to the cable. When you use a cradle, slide in the flashlight with the front facing directly towards you. When you use the charger cable directly, use the two red dots to correctly connect the flashlight.

### CAUTION:

To extend battery lifetime adjust the power of the flashlight to your needs. When used with 100% power **DO NOT** leave unattended and use it (user serves as cooling device).

## Accessories

- Quick locks
- Carabine hook
- Wrist, shoulder or headmounts

Accessories are made in the same quality as the flashlights and covered by the same guarantee.
